Wire Stripper No. 5

The WEICON wire strippers allow flexible and solid conductors to be stripped easily, quickly and evenly. The wire strippers are ergonomically shaped and have an automatic scanner system to determine the cable diameter. This prevents damage to the inner conductor. The product family of wire strippers includes various types which are used in different fields and are tailored to the individual needs of the users. The pincers are used both in trades and in industry and are also suitable for private use.

The WEICON Wire Stripper No. 5 has an adjustable length stop from 5 – 12 mm. This allows all flexible and solid conductors of 0.2 – 6.0 mm² (24 – 10 AWG) to be stripped. The length stop can be removed if required. An easy-to-access side cutter is integrated into the tool and can be used up to a cable diameter of 2 mm. It also has exchangeable blades.
