

REFERENCE VIRTUS 62

The Virtus 62 embodies Morel's technological advancements. From its Unified woofer chassis, powerful EVC™ motor with large 2.1" voice coil, and MT120N Acuflex™ coated 1.1" soft dome tweeter and MXR crossover technology, this new 2-way component system brings emotion to music with a balance of rich, natural midrange, high-frequency detail and vibrant bass.

Providing an additional degree of versatility for building your system, the new Virtus 62 is available in both 2-ohm and 4-ohm impedance options. This ensures that you can maximize the power from your amplification source, whether it's from your factory head unit or an aftermarket amplifier. Choose the impedance that suits your setup best and unlock the full potential of your audio system.

Key advantages

- High power handling EVC™ motor design
- 2-ohm and 4-ohm impedance options
- Compact woofer and tweeter
- Acoustically transparent Lotus grille
- High resolution MT120N tweeter

Specifications

	SIZE & CONFIGURATION	NOMINAL IMPEDANCE (ohm)	POWER HANDLING (Wrms)	MAX POWER HANDLING (W)	SENSITIVITY (2.83 V /1M) dB	FREQUENCY RESPONSE (Hz)
Virtus 62.4	6½ 2-way	4	140	300	88	55-22,000
Virtus 62.2	6½ 2-way	2	120	260	90	55-22,000
